# CAMPUS ASIA PLUS SUMMER SCHOOL 2024

As one of the INTER-UNIVERSITY EXCHANGE PROJECTS by the Ministry of Education, Culture, Sports, Science and Technology, Hiroshima University launched the "International Collaborative Human Resources Development Program in Asia to Foster Inclusive Minds" program in 2021, which consists of COIL-type education (online), summer school (in Hiroshima), short-term study abroad (in Asia), and semester study abroad (in Asia).

The goal of this program is to provide a higher quality educational collaboration through mutual learning and exchange between students of Hiroshima University and students of the partner universities in Asia. 18 students from five Asian universities and six students from Hiroshima University will gather at Hiroshima University to learn how to develop human resources who can recognize communication barriers arising from differences in views on peace, religion, gender/minority, etc.

This summer school will be held at Hiroshima University. Therefore, we are looking forward to receiving applications from those who are able to participate in the entire program as a student of the host university and who are willing to actively interact with Asian students and help HU coordinators operate the program to make the program fruitful.
