*The screen images shown below are samples only. For actual operation, follow the on-screen instructions.

1.1 What is authenticity verification ?

Screen Images

Steps

How to Operate

Digital watermarks are embedded in certificates issued at convenience stores. The person who receives the certificate (such as a company) can check the authenticity of the certificate.

As an authenticity confirmation procedure, launch the smartphone application "POPITA" and hold it over the received certificate, and the screen will automatically access the confirmation site. You can confirm the authenticity of the certificate by entering the necessary information on the confirmation site that has transitioned.

Authenticity: Records created with legitimate authority are prevented from false input, rewriting, erasure, and confusion, and the responsibility for creation is clear from the motherboard's point of view.

確認コード: XXXX-XXXX-XXXX

A screenshot of the 'Authenticity Confirmation' (真正性確認) screen. It features a '確認コード' (Confirmation Code) input field divided into three sections: '左4桁' (Left 4 digits), '中4桁' (Middle 4 digits), and '右4桁' (Right 4 digits). Below this is a '注意事項' (Notes) section with a bullet point: '• 証明書に記載されている確認コードを入力してください。' (Please enter the confirmation code written on the certificate). A blue '確認' (Confirm) button is located at the bottom right. Red boxes highlight the input field and the confirm button, with red circles containing the numbers '5' and '6' respectively.

1

Start the installed "POPITA" application.

2

POPITA app enables external camera.

3

Hold the camera so that the frame of the certificate fits within the frame of screen ②.
* No button operation is required.

4

If the reading is successful, the screen automatically changes to the authenticity confirmation screen. Enter the required information.

5

Enter the "confirmation code" written on the received certificate.
* The verification code is written on the lower left of the certificate.

6

After entering the necessary information, click the "Confirm" button.

How to Operate

The screenshot shows a web interface for 'The University' with the title '確認結果' (Verification Result). It features a blue header with a '7' in a circle. Below the header, there are two main sections: '証明書情報' (Certificate Information) and '学生情報' (Student Information). The '証明書情報' section contains three rows of data: '確認コード' (Verification Code) as 'XXXX-XXXX-XXXX', '証明書発行番号' (Certificate Issue Number) as '証第C XXXXXX 号', and '種別' (Type) as '在学証明書'. The '学生情報' section contains eight rows of data: '学籍番号' (Student ID) as 'XXXXXXXXXX', '卒業区分' (Graduation Category) as '在学生', '学生氏名' (Student Name) as 'XXXXXXXXXX', '学生氏名(カタカナ)' (Student Name in Katakana) as 'XXXXXXXXXX', '学部学科' (Faculty/Department) as 'XXXXXXXXXX', '入学年' (Enrollment Year) as 'XXXX年XX月XX日', '卒業年' (Graduation Year) as 'XXXX年XX月XX日', and '生年月日' (Date of Birth) as 'XXXX年XX月XX日'.

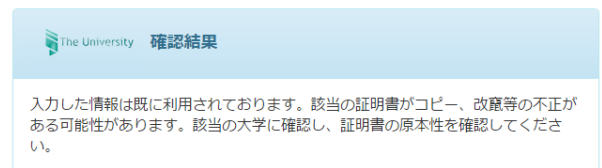

証明書情報	
確認コード	XXXX-XXXX-XXXX
証明書発行番号	証第C XXXXXX 号
種別	在学証明書

学生情報	
学籍番号	XXXXXXXXXX
卒業区分	在学生
学生氏名	XXXXXXXXXX
学生氏名(カタカナ)	XXXXXXXXXX
学部学科	XXXXXXXXXX
入学年	XXXX年XX月XX日
卒業年	XXXX年XX月XX日
生年月日	XXXX年XX月XX日

7

If the verification code matches successfully, the certificate information will be displayed.

If the verification code is incorrect, you will see the verification result as shown below. Check the entered information again, and if "Certificate Information, Student Information" is not displayed, report to the university and confirm the originality of the certificate.

The screenshot shows a web interface for 'The University' with the title '確認結果' (Verification Result). Below the header, there is a message in Japanese: '入力した情報は既に利用されております。該当の証明書がコピー、改竄等の不正がある可能性があります。該当の大学に確認し、証明書の原本性を確認してください。' (The entered information is already being used. There is a possibility of irregularities such as copying or tampering with the certificate. Please check with the corresponding university and confirm the originality of the certificate.)
