Please provide specific and detailed information about the reasons for the application and the individual circumstances of all family members. For international students, please describe in detail your living and financial situation in Japan.

●申請理由 / Reason For Application

I am a privately-financed student from 〇〇〇 country.  
I am currently living alone in an apartment near the university.  
I am busy doing my research and studies, and so I eat out during the weekdays.  
But during the weekend, I cook at home in order to save on food expenses.  
During my first academic year here, I received scholarship from JASSO, and for the academic year 20〇〇, I will receive scholarship from 〇〇 Foundation for one year.  
Currently, I am a research assistant and work part time in 〇〇〇, but because of my research, I cannot afford to work more hours.  
Occasionally, my parents send me allowance, but because of the high cost of living in Japan, it is never enough.  
Due to the above reasons, I would like to submit my application for tuition fee exemption and I seek your kindness to waive my tuition fee.

If you will be away from Japan for a period of time due to return to your home country, etc., please be sure to fill out this section.
