

5-2. Readiness for Natural Disasters

October, 2022
Orientation for newly arriving
international students

HIROSHIMA UNIVERSITY

Preface

○ Japan is so prone to natural disasters!

International students need to take extra care for following natural disasters to save lives.

- **Earthquakes(including Tsunami)**
- **Landslides and floods caused by torrential rain**

Damaged Railway by torrential rain
in July, 2018
in Higashihiroshima city

Landslide by torrential rain in July,
2018 near the Higashihiroshima
campus

Natural disasters actually occurred in the neighboring areas

When disasters actually happen...

1 Collect information

Higashihiroshima city

Higashi-Hiroshima City

Disaster prevention info-mail service

Hiroshima city

App "Go to Evacuation Shelter!" (避難所へGo!)

Class cancellation

○You can get latest information on this website

"DISASTER INFORMATION"

(provided by the japan times)

<https://disaster.japantimes.co.jp/>

2 Consider evacuation depending on situations

(In the case of heavy rain) It may be better to move up to higher place, such as the upper floors of your apartment if evacuation itself seems dangerous, such as at night.

3 Answer to a survey conducted by HU to report your safety

This survey can be answered after the situation has settled.

Summary

Before

1. Understand the surrounding environments of residence

- [Hazard Map of Higashi Hiroshima](#)
- Evacuation Guidance app (Go to Evacuation shelter!)
