| <p>I really enjoyed this online summer school provided by KNU during these short two weeks. First, I was impressed by the enthusiasm from Korean students supports, they not only speak English fluently but they created many interesting and got the whole energy to light up us foreign students. Second, I could not fully express how joyful to take Sam (means teacher in Korean)'s class, although I could not learn very much Korean during just 14 day, Sam leded us to learn the basic Korean which she was so sweet and encouraged us to keep going on to learn further more. I was really confused by the Korean characters, the combination of circle, vertical and horizontal line, they are really difficult to memorize but with Sam's help, I already learned how to pronounce Korean, how to write Korean characters and how to greet in Korean. Third, I liked the opportunity which after Korean class, I can talk with Korean students and other students from overseas, I met a German girl there during the group activity, I found that even though we are very distant, we still have a lot in common, love Asian culture. And, my group supports prepared quiz every day to help us consolidate our learning for today.</p> <p>Although this summer school is an online experience and I could not take pictures with those students due to the Covid-19, I still would highly recommend this summer school to people who mildly interested in Korean culture.</p> | |
