Kids support for foreign students!

We provide a school life support of your
accompanied children.

When your accompanied children are going to enter Japanese
elementary school, we can

- ①prepare school stuffs with you and your kids.
- ②go to elementary school with you and your kids for your help.
- ③contact school teachers when you feel some difficulties in
communicating with them.
- ④help your kids to do Japanese homework.

If you have any questions, please feel free to ask us.

※We can't do all your requests, because our activities are only
a volunteer work. We are not responsible for any loss or damage
during the volunteer work.
